## DETAILED ACTION

### *Allowable Subject Matter*

1. **Claims 10-12 and 14-16** are allowed.

The following is a statement of reasons for allowance:

As for independent claim 10, it recites a method of displaying a compound word. Prior art such as Bharat, Evans and Noble show similar method, but fails to teach a method wherein the step of displaying said compound word with said component word visibly distinguished from the remainder of said compound word comprises: for each particular stem word of the plurality of stem words, displaying said compound word with letters at and between (a) the starting position that is associated with that particular stem word and (b) the ending position that is associated with that particular stem word highlighted, and with a remainder of said compound word that is not included at or in between any of the starting and ending positions unhighlighted.

Dependent claim 14 is allowed because it further limits its parent claim.

As for independent claim 11, it recites a method of displaying a compound word. Prior art such as Bharat, Evans and Noble show similar method, but fails to teach a method wherein the step of displaying said compound word with said component word visibly distinguished from the remainder of said compound word comprises: displaying said compound word with (a) said component word highlighted and (b) at least one letter immediately before and adjacent to a first letter of said component word in said compound word unhighlighted.

Dependent claim 15 is allowed because it further limits its parent claim.

As for independent claim 12, it recites a method of displaying a compound word. Prior art such as Bharat, Evans and Noble show similar method, but fails to teach a method wherein the step of displaying said compound word with said component word visibly distinguished from the remainder of said compound word comprises: displaying said compound word with (a) said component word highlighted and (b) at least one letter immediately after and adjacent to a last letter of said component word in said compound word unhighlighted

Dependent claim 16 is allowed because it further limits its parent claim.
